Products Under Golf Hybrids

[1. Callaway RAZR Hawk Hybrid](#)

RAZR X Hybrids leverage Callaway's new Zero Roll Design to help golfers hit higher and longer shots, even those shots struck low on the face. These inertia-driven clubs are highly playable and offer hot ball speeds with either standard or Tour models, so

[2. Callaway RAZR X HL Hybrid](#)

Available 15th February, call 0800 0121722 to pre-order. These game-improvement hybrids are designed to be highly versatile clubs that help amateur golfers hit higher, longer shots that fly straighter, even on miss-hits.

[3. Callaway RAZR X Hybrid](#)

Available from 15th February, to pre-order call 0800 0121722. RAZR X Hybrids leverage Callaway's new Zero Roll Design to help golfers hit higher and longer shots, even those shots struck low on the face.

[4. Mizuno JPX Fli Hi Hybrid](#)

The new JPX Fli-Hi replaces the difficult to hit traditional long iron with an easy to launch, hugely forgiving wood type hybrid.

[5. Mizuno JPX Hybrid \(watch video\)](#)

The larger JPX800 hybrids harness their HOT METAL energy within an extremely consistent 'Ultimate Dynamic Stability' design.

[6. Mizuno MP FLI HI Hybrid Iron](#)

The MP Fli-Hi fits neatly into the bag of good ball strikers looking for a higher trajectory and soft landing from long approach shots.

[7. Mizuno MP-630 CLK Hybrid](#)

Compact, with a 'tour-ready' square face and low profile the MP CLK offers something different in a wood type hybrid ; forgiveness, without the loss of workability.

[8. Ping Faith Hybrid](#)

The hybrids feature a patent-pending technology that produces higher launch with extremely low spin for improved accuracy.

[9. Ping G15 Hybrid](#)

The G15 hybrid is engineered as a high-launching, forgiving alternative to long and mid-irons.

[10. Ping G20 Hybrid](#)

The offset hosel design helps the G20 hybrids create the high launch and low spin that improve your accuracy. A large, internal weight inside the 17-4 stainless steel head provides forgiveness and distance.

[11. Ping i15 Hybrid](#)

For golfers who prefer a traditional hybrid shape and size, the stainless steel i15 offers a high moment of inertia with a tour-preferred trajectory.

[12. Ping i20 Hybrid](#)

Available mid February, call to pre-order 0800 0121722. More surface area low on the clubface ensures forgiveness to optimize launch conditions.

[13. Ping K15 Hybrid](#)

Ping K15 Hybrid; in four options (3 through 6) rely on a patent-pending design that creates lower-spinning, higher-launching shots that fly straighter and longer.

[14. Rife Two Bar Hybrid Mallet Putter](#)

Rife Two Bar Hybrid Mallet Putter, combine the best of all putters.

[15. TaylorMade Rescue Hybrid](#)

TaylorMade Rescue hybrid club, adjust the loft and face angle, white non-glare crown and black clubface for easy alignment.

[16. TaylorMade Rescue TP Hybrid](#)

TaylorMade Rescue TP, adjust the loft, change the face angle and have the option to change shafts.

[17. TaylorMade Rocketballz RBZ Rescue](#)

Coming soon, call 0800 0121722 to pre-order. Launch it longer and higher, speed pocket in the sole boosts speed for more distance.

[18. Titleist 910H Hybrid](#)

Titleist® 910 hybrids deliver total performance and versatility with improvements in flight, fit, looks, feel and sound.
