#### **Products Under Golf Wedges**

##### **[1. Callaway Forged Wedges](#)**

Available 15th February, call 0800 0121722 to pre-order. Forged for precision, designed for maximum spin and versatility.

##### **[2. Callaway X Series Jaws Wedge](#)**

The X Series Jaws Wedges produce maximum spin and versatility for the short game results you've always dreamed of. Plus, the forged carbon steel provides Tour-level feel.

##### **[3. Cleveland CG16 Wedge](#)**

Based on the shape of the tour proven CG14™ wedge, the CG16™ has a hint of offset and is slightly larger for added forgiveness.

##### **[4. Mizuno JPX Series Wedge](#)**

A 'Balanced Performance' design - the JPX Series wedges are ideally suited to fill out the JPX800 iron, or any other cavity based iron set.

##### **[5. Mizuno MP R-12 Wedge](#)**

The rounded version of the MP wedge is Mizuno's first flow design model - with a playing profile specifically suited to each loft.

##### **[6. Mizuno MP T-11 Wedge](#)**

Forged from 1025E Pure Select mild carbon steel, Mizuno's MP T-11 provides a pure, soft club-head that holds the ball a fraction longer on full pitches.

##### **[7. TaylorMade XFT Wedge](#)**

Fresh grooves & a rough surface promote maximum backspin & control.

##### **[8. Titleist Vokey Wedge](#)**

Titleist Vokey Wedge, a popular choice. In satin or gun metal finishes.

**[9. Wilson Staff 1200 Wedge](#)**

The stunning finish of the Wilson Staff 1200 wedges gives a classic look whilst producing extraordinary feel and control around the greens!

**[10. Wilson Staff Harmonized Wedge](#)**

Classic styling and unmatched value have made Harmonized wedges perennial top-sellers in a classic satin finish.

**[11. Wilson TW9 Wedge](#)**

Tour-milled grooves for shot-stopping spin from precise distances are cut into each new Wilson Staff® Tw9™ wedge.
